Harold —

Am a little slow in answering letters.

Post-Dispatch had small article about James' suit being thrown out. It said that the stuff was stolen (letters) from Jerry, not him. Therefore Jerry would have to sue Beatty.

I'll send you a clipping as soon as I copy it.

As far as a radio goes that you describe — I think they are hard to find. Most radios today are either cheap "throw-away" or specialty radios such as alarm clock for traveling included on the radio.

The Panasonic This ones that you are talking about have a small woofer speaker and rather round. Nothing I know of is smart.

Find out how much Susan and my files would cost if they do insist on charging. Let me know. It might be worth it.

Nothing else new here.

Chris

Just this second received article on Mark from you. Looks like Bullshit I'll let you know. O
